

Assignment 3

APA 254 – Data Structures

DUE: Dec. 5

*Programming Assignment (Submit in class)

Download '254-assignment-code.zip' and complete the following task.

Task-1: Complete the code for 'inOrder', 'postOrder', and 'levelOrder'.

Task-2: Complete the code for 'main'. The input tree and output format are described in the comment. Refer to the sample section of the code for more information.

Task-3: Complete your Makefile to compile your code. The empty Makefile is provided in the directory. Please refer to

https://www.cs.swarthmore.edu/~newhall/unixhelp/howto_makefiles.html for more information.

Submission: Submit your 'binaryTreeTraversal.cpp' and 'Makefile'. **Print them out (staple it!) and submit.**
